REFERENCE LETTER

I've had the opportunity to work with Philippe Dumas on 2 different occasions as my vessel was directed to Port Djibouti for fuel, supplies, and provisions. Due to his diligent work ethics we were able to complete all of our requirements. Philippe tirelessly worked on everything asked of him. He showed great patience on the constant changing of vessel requests and changing schedule. At times getting our supplies through customs was very challenging, yet Philippe did everything possible to get supplies to the ship. Every time I called him he would answer the phone or get back to me within minutes to ensure my every need was addressed.

Thanks to the his very positive approach and local knowledge his coordination of getting my vessel our logistical requirements made the port calls successful. I look forward to working with Philippe again and can confidently recommend him as a reliable (professional) agent in ship supply activities.

Sincerely yours,

Gene D. Anderson
